

**Seventh Workshop “Spatial Econometrics and Statistics”  
9<sup>th</sup> and 10<sup>th</sup> June 2008, Paris.**

**Amphi COLEOU, AgroParisTech**

**Monday 9th June 2008**

**13h30-14h00**     **Welcome and registration**

**Chairman: Stephan Marette** (INRA-AgroParisTech, France)

**14h00-15h00**   **Invited speaker lecture I**

**Elena Irwin** (Ohio State University, USA)

*Identifying Spatial Interactions in the Presence of Spatial Error Autocorrelation: An Application to Land Use Spillovers*

**15h00-15h40**   **Muriel Travers**, (Université de Brest-Ifrémer, France), Emmanuel Bonnet and Morgane Chevé

*Perception of industrial risks in the Seine Estuary: A spatial hedonic analysis*

---

**15h40-16h00**     **Coffee break**

---

**16h00-16h40**   **Markus Zimmer** (University of Munich, Germany)

*Network Effects on Domestic Migration Flows Across Germany – A Spatial Autoregressive Perspective with Spatially Structured Origin and Destination Effects and Heteroskedastic Innovations –*

**16h40-17h20**   **Laura Hering** (Université Paris 1, France) and Sandra Poncet

*Economic Geography, Spatial Dependence and Income Inequality in China*

**19h30**            **Diner at the restaurant « Le Ciel de Paris »**

## Tuesday 10th June 2008

**Chairman: Christine Thomas-Agnan** (GREMAQ –TSE, France)

### 9h00-10h00 Invited Speaker lecture II

**James P. LeSage** (Texas State University-San Marcos, USA)

*Spatial Econometrics and Models of Knowledge Spillovers*

**10h00-10h40 Julie Le Gallo** (Université de Franche-Comté, France) and Bernard Fingleton

*Endogeneity in spatial context: properties of estimators*

---

**10h40-11h00 Coffee break**

---

**11h00-11h40 Martin Burda** (University of Toronto, Canada) and Matthew Hardingy

*Process Estimation of Large-scale Spatial Dependencies*

**11h40-12h20 Michel Pfaffermayr** (University of Innsbruck Wien, Austria)

*Maximum Likelihood Estimation of a General Unbalanced Spatial Random Effects Model with Normal Disturbances*

---

**12h20-14h00 Lunch at Espace DUBOSC**

---

**Chairman: Bernard Fingleton** (University of Strathclyde, Scotland)

### 14h00-15h00 Invited speaker lecture III

**Garth John Holloway** (University of Reading, UK)

*Estimation of Human Trafficking Propensities: Evidence from a Bayesian Hierarchical Spatial Investigation Within Tanzania*

**15h00-15h40 Mark Roberts** (University of Cambridge, UK) and Uwe Deichmann

*Regional trade integration and spatial spillovers in an empirical growth model*

---

**15h40-16h00 Coffee break**

---

**16h00-16h40 Pierre Cantelaube** (INRA-AgroParisTech, France), Pierre-Alain Jayet and Paul Zakarov

*Geographical downscaling of outputs provided by the AROPAj economic farming model*

**16h40-17h20 Maximilian von Ehrlich** (LMU Munich, Germany), Sascha O. Becker, Peter H. Egger and Robert Fenge

*Going NUTS: The Effect of EU Structural Funds on Regional Performance*
